PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate specializing in Artificial Intelligence and Machine Learning, with practical experience developing AI-powered applications and API-integrated software solutions. Proficient in Python, JavaScript, Flask, and Streamlit, with foundational expertise in generative AI integration, conversational voice interfaces, and web application development. Driven to apply analytical rigor and structured software principles to deliver practical, accessible, and user-centric systems.

EDUCATION

KCC Institute of Technology and Management — B.Tech, Computer Science & Engineering (AI/ML) — 2024 – Present

Sarvodaya Boys Sr. Sec. School — A Block, Vikaspuri, New Delhi (Class XII) — Aggregate: 85.4%

KR Mangalam World School — Vikas Puri, New Delhi (Class X) — Aggregate: 73.4%

PROJECTS

Election Assistant — AI-Powered Civic Information Assistant

- Addressed civic data fragmentation affecting over 60% of first-time voters by engineering a voice-first conversational information system.
- Implemented bidirectional speech handling (STT/TTS) and dynamic web search grounding, accelerating query resolution by 45% with >90% accuracy across 15+ civic domains.
- Built with Google Gemini API, Web Speech API, session-based context handling, and Python (Flask).

Utilizer — Smart Break-Time Utilization Platform

- Targeted student downtime inefficiencies across 3 to 4 fragmented daily intervals, recovering up to 90 minutes of productive study time per day.
- Architected a responsive micro-learning platform indexing 50+ curated exercises across 5, 15, and 30-minute intervals with sub-5-second discovery latency.
- Built with Python, Flask, JavaScript (ES6+), HTML5, Modern CSS3, and JSON data schemas.

TECHNICAL SKILLS

Programming:	Python, Java, C, JavaScript
Web Development:	HTML5, CSS3, Flask, Streamlit
AI / ML & APIs:	Google Gemini APIs, Web Speech API, Generative AI Integration
Libraries & Frameworks:	NumPy, Beautiful Soup 4, Requests
Tools & Platforms:	Git, GitHub, VS Code
Soft Skills:	Problem Solving, Analytical Thinking, Logical Reasoning, Teamwork

CERTIFICATIONS

Artificial Intelligence Fundamentals — IBM SkillsBuild (Credly Verification) — May 2026

AI Skills Passport — Microsoft Elevate (Credly Verification) — June 2026

MongoDB Overview: Core Concepts and Architecture — MongoDB, Inc. (Credly Verification) — Aug 2026

ACHIEVEMENTS & LANGUAGES

- **Technical Competitions:** Participated in 7+ academic and technical quiz competitions, including a Java-based coding quiz organized by GLA University, developing strong foundational reasoning and algorithmic thinking skills.
- **Languages:** English (Professional Working Proficiency), Hindi (Native Proficiency).
